Wednesday, August 6 2025

Attendees:

Membership of the Robson Ranch Republican Club

Meeting Called to Order: 6:30 PM

Opening Prayer – Constance Quigliano

THANKS TO OUR SPONSORS – Andy Hopper, X, X, X?

1. SPECIAL GUEST - Abraham George, Chairman of the Republican Party of Texas

Abraham George introduced himself to the meeting providing some of his family background (a legal immigrant from India) and his work experience leading up to his current position.

Items raised by Chairman George are as follows:

- **Redistricting**

George made a brief statement in relation to the current Texas redistricting efforts. He outlined the party's legal involvement in this issue.

- **Texas GOP Political Prominence**

Texas will be prominent on the US political scene during the forthcoming months because the following:

2026 State Convention – Houston

2028 RNC National Convention – Houston

- **Plight of young people**

Chairman George urged the club to focus on young people (20s and 30 year olds) especially with regard to issues such as housing. Fulfillment of the American Dream is difficult in today's America. However, there are plenty of opportunities to be had.

- **Fix property tax issue**

Encourage the Austin legislature to focus on property tax in TX and support the legislators in their efforts.

- **Limit Primary involvement**

Chairman George would be grateful to receive recommendation of candidates for office. Currently he is interviewing those who are putting their names forward. It is hoped that careful selection of candidates will lead to greater election success and less wastage of election funds on primaries.

- **Aim to flip 6 or 7 congressional districts**

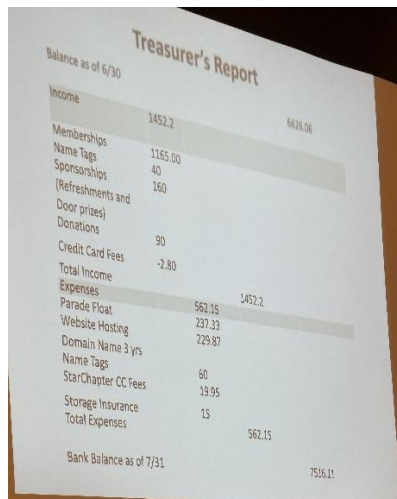

- **Elections in May**

Chairman George responded to a question from one of our members, Tim McCormick, regarding May elections and the problems associated with them. McCormick pointed out that in council elections, no party is defined. George believes that all elections are partisan and indicated that declaration of party would be welcome.

George does not like May elections because voter turnout is so poor. A small # of voters are voting on some incredibly important issues, bonds being an example.
